

APEX-1132™

Roofing Shingle
Preservation System

For a safer, longer-lasting roof

Through molecular engineering,
APEX-1132™ is chemically **attracted**
to aged asphalt molecules

Improved Resilience

*Prevents warping and cracking in extreme
weather and reduces hail damage*

Fire Resistant

Reduces flame spread by 68%

Increased Durability

*Improves shingle grit retention by up to 50%
and reduces discoloration*

case study

Who?

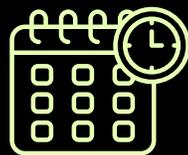

Third Party Test
Roof in FL

What?

APEX 1132 retains 99% more shingle grit than competitors

When?

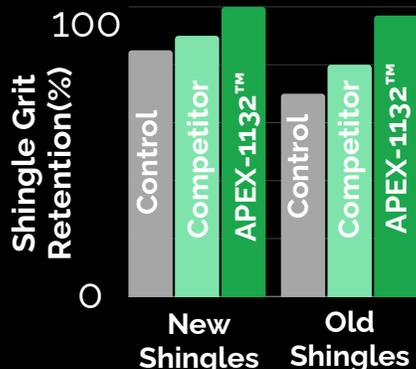

Apply APEX-1132 three years after a new roof is installed, with reapplications recommended every five years.

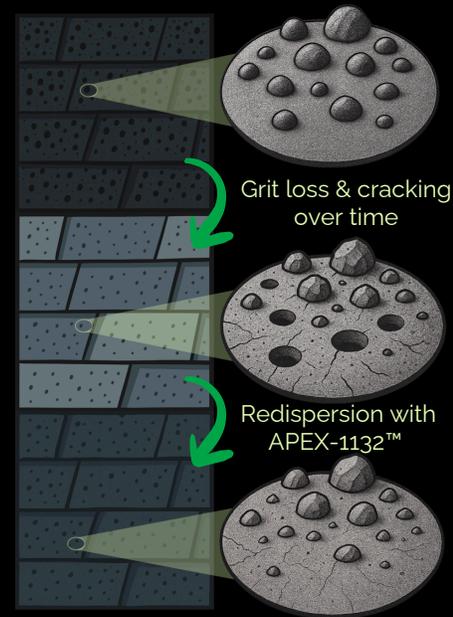

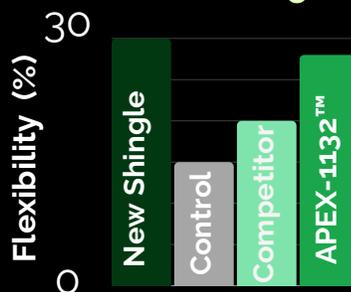

APEX-1132™
rapidly absorbs into shingles and redisperses shingle components to improve performance

RESULTS

Improved Grit Retention

Flexibility Similar to New Shingles

BENEFITS

Dramatic boost in shingle flexibility and durability

Resists deformation in extreme temperatures and hail

Easy DIY application ready for use in under an hour

Environmentally and family friendly: no odors

Resistant to flame spread

Adds 6 years to your roof life
